PHILOSOPHY

We believe that:

- God loves each person unconditionally.
- Each child is a unique and valuable person.
- Every child has the potential to learn academic concepts like reading, math, science, social studies and more in a fun and prepared classroom.
- Through our teaching curriculum, students will thrive in both social and academic skills.
- Children can learn through prepared play and meaningful interactions with teachers and peers.
- Discipline includes helping children problem solve, talk things through and working through natural/logical consequences.
- Our doors are always open for informal parental participation and visits.

OUR GOALS

- To teach children that God loves them.
